100% malware and ad-free! Never worry again about your browsing data! Privacy Tweaks for Chrome Crack Mac settings: Block trackers and protect your identity Block all web trackers in Google Chrome Block third-party cookies, including Google Analytics, Facebook, and many more Block invisible trackers that record all your activities without your knowledge Block webRTC to protect your IP address Change the timezone and geolocation in Chrome Block ads, images, videos and other advertisements Block images and files from unsecure websites Turn on proxy connections to protect your IP address Erase all traces from your browsing sessions Quick and easy setup Privacy Tweaks for Chrome: How does it work? Easy to install and use Simply install Privacy Tweaks for Chrome from the Chrome Web Store and launch it. Select the icon in your browser toolbar to activate the extension, which will be immediately listed in the options menu. Then click on "Privacy" to access all the different tweaks and settings you can apply to your browser. Reliable and trustworthy Privacy Tweaks for Chrome is a reputable extension developed by the developer of "Adblock Plus", an all-around privacy tool. It is compatible with all the most popular browsers, including Google Chrome, Mozilla Firefox, Internet Explorer and Safari. You can trust the extension because it is malware and ad-free. Fast and secure Privacy Tweaks for Chrome is very fast and simple to use. You can apply a selection of the settings in a matter of minutes. All the tweaks are instant and can be switched on or off. If you want to customize what the extension does you can find a lot of options in the Privacy area and you can also create an in-house whitelist that lists specific websites or files you want the extension to ignore. Privacy Tweaks for Chrome has very high compatibility with other privacy extensions. For instance, it works perfectly with "Adblock Plus". The developers are also constantly improving the extension to ensure high performance. Tight integration with Google Chrome Privacy Tweaks for Chrome is seamlessly integrated with Google Chrome. It does not mess with any of the Google Web Store's existing controls and only works when you are in Chrome's settings area. GEO-FRIENDLY: You can change your IP address and location, all
