## AutoCAD

Type `cd "c:\program files\autodesk\autocad"` and press Enter. Click on the run shortcut icon (Win+R) and type the following in the box: `cmd`. Then click Run. This will run the program. If you have a 64-bit version of Windows, the full path is: `c:\Program Files (x86)\Autodesk\AutoCAD 2015\AutoCAD.exe`. Once the application is installed, you can use the following syntax to open AutoCAD: `c:\Program Files (x86)\Autodesk\AutoCAD 2015\AutoCAD.exe`. You can create a shortcut to your AutoCAD executable to your desktop by clicking Ctrl+Alt+S, or use the Run option to set AutoCAD as the default application for .dwg files. If you have the 32-bit version of Windows, the full path is: `c:\Program Files\Autodesk\AutoCAD 2015\AutoCAD.exe`. Note that the full path will differ depending on where you installed AutoCAD.

**How to activate AutoCAD** Type the following in the main AutoCAD window: `product_key`. If your product key is not the default one, then go to the Autodesk E-LAW website at [www.autodesk.com/emea/e-law](http://www.autodesk.com/emea/e-law) and find the product activation code for AutoCAD 2015 or AutoCAD 2016. Write down this code. Return to AutoCAD and type the following in the main AutoCAD window: `register_product`. Enter your product key and press Enter. Your software is now registered and activated. The button will appear that lets you activate the product.

**How to unregister and deactivate the product** Type the following in the main AutoCAD window: `unregister_product`. Enter your product key and press Enter. Your software is now unregistered and deactivated.

**How to uninstall the product** Type the following in the main AutoCAD window: `uninstall`.
