We propose a multi-faceted approach that includes co-injection of tumor cells with a molecularly optimized plasmid encoding a granulocyte-macrophage colony-stimulating factor (GM-CSF) fusion protein, a powerful immune stimulant. GM-CSF expression will enhance dendritic cell (DC) maturation, tumor cell uptake and expression of the plasmid encoding GM-CSF, and cytotoxic T cell activation. We propose to optimize the DNA delivery efficiency and persistence of the transfection in tumor cells by the use of specific carrier

What if the enemy comes after you? The enemy of our country, the folks who despise this nation with all their hearts, that have within their own hearts the desire to see us destroyed, are taking every advantage available to them to make that happen. Obama is attempting to destroy this nation. I've been told he may well succeed. Much of what I've been told is based on observation. I have a feeling that I am vastly outnumbered here, but what I've seen is that the core of the opposition to American greatness is a small group of people who don't want this nation to be great at all. Which puts me in mind of a passage from the Bible, 1 Peter 3, verses 9-10, where Peter says: "Here is where we learn that when you see an opportunity to do evil, and you don't exercise goodness, but you embrace evil instead, that opportunity will pass you by. That opportunity to become a hateful, evil person is yours. That's one of the things you have to learn." Unless the good guys can stop it, they're going to lose this nation. My prediction is that if the Republican Party doesn't wake up and fight this thing, they're going to lose. For my part, I'm trying to do what I can to help them. My goal is to inform people of the situation we're in, to wake them up, to get them on the side of the good guys. We're in a war, which means that we need to be ready.
